Your Partner in Home Automation and Control Technology.

URC®

Control the Experience.

Over 20 Years as the Leader in Control and Home Automation

For more than 20 years, URC has set the higher standard for control and home automation technology to make it easy for everyone to use.

As the unquestioned leading supplier of remote controls and home automation systems to consumers, subscription broadcast providers, custom installation professionals and OEM partners – URC has depth of technology and experience unmatched by any other company.

Control is in our DNA.

Your Partner in Technology – From One Room to the Whole House

URC controls are in more homes than any company. In fact, we practically invented AV control, having served numerous top cable providers, thousands of integration professionals, countless OEM partners, and millions of consumers worldwide.

From one room to the entire house and beyond, we're the partner of choice as you move into this growing home automation market.

Through our comprehensive Total Control® line of products and technologies we can help you provide far better experiences and less complex systems to your customers.

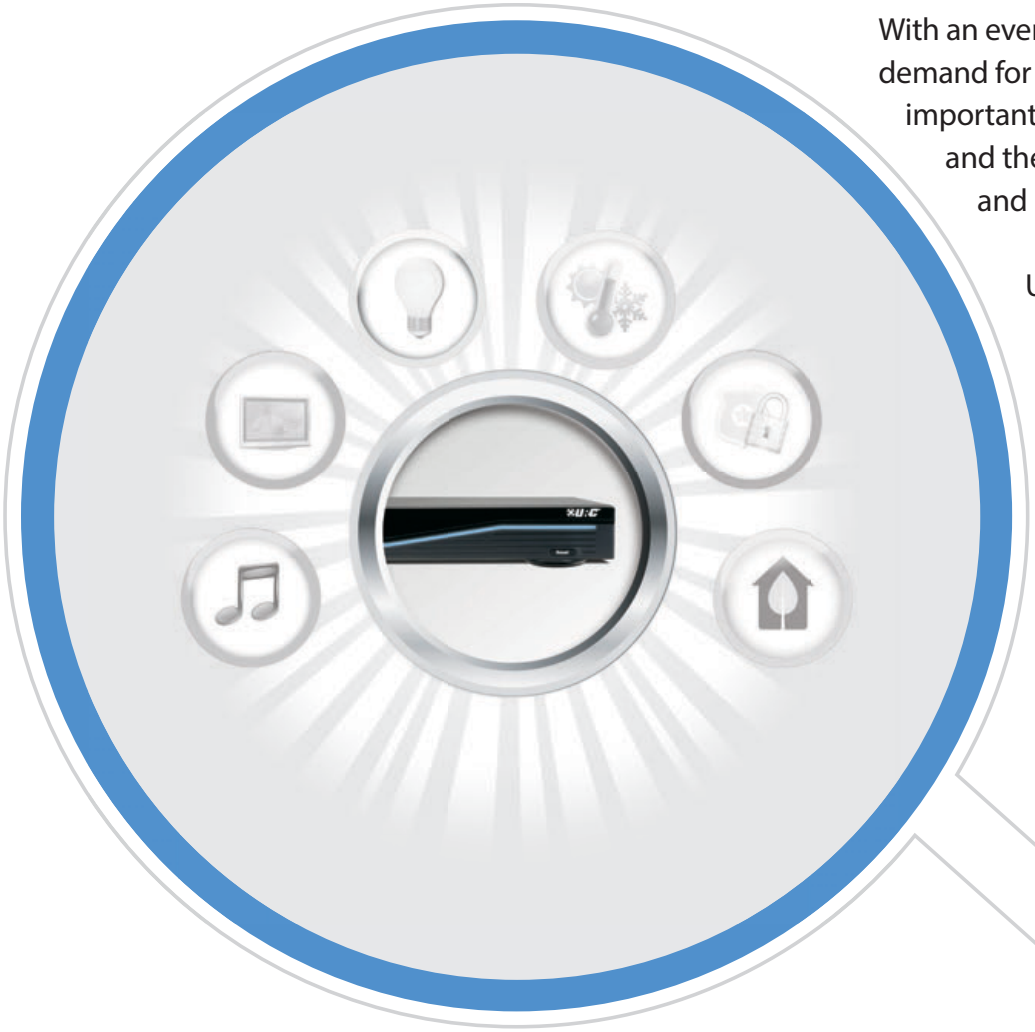
Powerful solutions to control music, video, lighting, climate, security, door locks, and more.

URC's system works with the most popular products on the market.

SONY LG TOSHIBA LUTRON MITSUBISHI SAMSUNG harman/kardon® Yale SONOS SCHLAGE

Pioneer YAMAHA Honeywell GE Panasonic ONKYO Kwikset LEVITON® DENON mara

Simple, Yet Powerful System Integration Begins Here



With an ever-increasing number of components at home, the demand for centralized, simple control becomes even more important. Consumers have A/V products to navigate, lights and thermostats to control, security systems to monitor and more.

URC offers state-of-the-art, whole-house control processors that bring together A/V, lights, thermostats, shades, and door locks into one simple system that's easy for everyone to use.

Our MRX Network Controllers provide system intelligence for whole-house control.

Access and Control Music & Video All Around the House

One touch on a URC remote, keypad or mobile device provides full access to all entertainment.

URC TRC-Series
Handheld Remote Controls

URC Mobile Apps

URC In-Wall Keypads and Touchscreens

Remotes

Keypads

Touchscreens

Mobile Apps

Now that virtually any product can be incorporated to our system, one can benefit from URC's array of devices to control these products.

We offer a full line of excellent remotes, keypads, touchscreens and mobile apps, all of which can be used alone or in combination with the others to bring everything together into one interface. And, many of them also offer live on-screen video on the device!

Navigate with Our Dynamic On-Screen Interface

With our dynamic on-screen TV interface, your customers can navigate all their audio, video and an entire whole-house system from any room with ease.

Simple-to-use menus provide instant, elegant access to TV favorites and music from a variety of sources – without interrupting TV viewing.

Integrate with Practically All A/V Components

Deliver instant access to all entertainment. Customers can search and select favorite music from many formats, including Pandora, Rhapsody, internet music, and CDs.

It's also easy to select movies, games, and TV programs from virtually any video source with an intuitive menu.

Stream favorite music – anywhere, anytime.

URC Streaming Network Player and Personal Music Server

Sonos Popular Music Players

Gain high-quality audio processing and distribution.

URC Single and Multi-Zone Amplifiers

URC Network Home Theater Amplifier / Processor

Enjoy instant access to every video source.

BluRay Players

Apple TV

CATV

XBox

Add Automation for Security and Peace of Mind

Incorporate a variety of URC surveillance cameras, third-party subsystems, and Z-Wave-enabled door locks to the system.

Customers can see who's at the door and check on the kids in the playroom from anywhere in the house. Or, monitor the home from the office, while on vacation, or any remote location from smartphones and tablets.

Incorporate IP cameras for live video monitoring inside and outside.

URC Indoor, Outdoor and Mini "Baby" IP Cameras

URC Touchscreens and Remotes for in-home video monitoring

iDevices for monitoring while away from home

Monitor and control door locks from anywhere.

URC Z-Wave Extender / Gateway

iDevices for monitoring while away from home

Provide Seamless Lighting and Climate Control

Add lighting and climate controls to the system. Turn lights on and off or set lighting scenes while at home or away.

Adjust temperature for greater comfort, and even add control of shades to drop when ambient light changes. All of these can be accessed using our friendly user interfaces.

Turn on and off house lights — individually or all at once.

URC Keypads

URC Dimmers and Transmitters

Set temperature from anywhere in the home or even while away for comfort and energy efficiency.

URC Network Thermostats

URC LCD Wi-Fi Remotes

Leading the Future of Home Automation

There's no substitute for experience. Look to URC, the leader in control technology, for custom installation, commercial integration, specialized OEM applications and all of your home automation needs. For decades our standards of high quality and reliability have been legendary in the industry.
Contact URC at (800) 901-0800 or (914) 835-4484.

universalremote.com

“We use it every day. It provides the ultimate control and flexibility for what our family needs.”

Adam, URC Total Control Homeowner
Tenafly, NJ

“We knew URC was the best way to go for our installations. We’d used other touchpad control systems in the past, and nothing works as well as Total Control.”

Dave, URC Total Control Professional Integrator
Buffalo, NY

“I just need mention how much the TRC-1280 and -780 set Total Control apart. Nobody, I mean nobody makes remotes that can compete with URC’s.”

Dennis Burger, Industry Reviewer and Expert
